As one of the largest check producers in the industry, Styles Checks™ is always creating the most modern artwork to portray on its personal checks and matching bank accessories. With graffiti inspired drawings, the new "Skate Decks" is sure to appeal to many consumers, especially those that follow the extreme sport of skateboarding.

In August 2009, Styles Checks™ released the new check design, "Skate Decks" through its website, www.StylesCheck.com. Drawn in a graffiti style of art, the personal checks feature four rotating scenes of skateboarders performing different tricks with their boards. To the left of each drawing is a close up of a skateboard in a matching color scheme and design. The address labels show four scenes, three of which are skateboards and one is the simply the word "skate." The checkbook cover and personal contact

cards both picture the silhouette of a skateboard and the word "skate" against a bright green background.

With the addition of the new "Skate Decks" check design, Styles Checks™ grows its offerings even further. Even if you are not a skateboarding fanatic, Styles Checks™ promotes designs for checks and banking accessories that speak to the interests of every collector, hobbyist, or enthusiast.
